

5/12/10

most important thing:

- variety of trails - people to exercise in a natural setting
- barrier-free trails - accessibility for disabled in nature
- sense of contemplation accessible → ~~in~~ a way from built enviro.
- More natural environment - trees as part of McCormick Woods  
Bicycles, other trail uses

- quality + unique place distinct ~~to~~ Port Orchard
- jogging loop ← (Green Lake trail)  
fitness stations ← off roads, pleasant place
- viewing tower (Mercer Slough)
- tennis courts -
- state of the art facilities
- outdoor recreation for all ages - minimize development
- disc golf - use trees as obstacles, land chooses where holes are
- no cutting trees + leaving stumps
- disc golf example  
NAD Park  
Naval Ammunition Depot

- More than one type of trail - also, horses
  - something open, passive and light footprint
- open, forested area for kids to have informal play in nature
  - preserve woods
- consistent w/ natural surroundings + quality of existing development
  - tells a story about the land the way it used to be
- need passive activities, ~~or~~ not group activities - access to people w/o driving far

- safe, low-cost recreation,  
healthier people outside
-
