**PORT ORCHARD:
SCENIC LIFE BY THE SEA
IN A SMALL TOWN
COMMUNITY**

The logo expresses this unique spirit. The interplay between the water, the sky and the land is represented in the relationships of graphic elements:

Contrasting, yet harmonious use of color and typography are employed for the words "port" and "orchard".

The lower edges of the letterforms of the word "Orchard" suggesting the shoreline underscore the important relationship of the town to the water and accentuate the rhythm of the waving lines.

The two waving forms create the sense of water movement, tide lapping, and boat wakes as well as offer a suggestion of celebration like streamers in the wind. Their woven relationship refers to the community interchange.

**CORRECT USE OF THE
PORT ORCHARD LOGO**

The spacing, colors, fonts and size relationships shown must be maintained. Please use the digital file provided only. Do not attempt to recreate the logotype. The logo is created with custom-crafted type forms which can never be replaced by a font.

The wave forms can also be used as accent design elements. See page six for details.

APPROVED VERSIONS AND
USAGE OF PORT ORCHARD
LOGO

- b. Use the full color version of the logo whenever possible. If color reproduction is not available, use either the grayscale option or line art options provided.
- c. Black is the preferred line art option. When using the white line art option follow these guidelines, maintaining the clear space specified on page five. The background can be black or one of the four palette colors. The white logo may be placed over a photo where there is sufficient contrast between the logo and the photo. See example. Only the white line art option can be used on a background other than white. The color, grayscale and black options must be placed on a white field using the clear space specified on page five.

PORT ORCHARD COLORS

- a. These four colors provide the palette for all printed applications. When used separately from the logo, these colors can be lightened or darkened if necessary. See examples on page six.
